

the original bill, and I a...a...the Chair would assume that you would have to amend it on Select File. If the bill advances. Senator Chambers.

SENATOR CHAMBERS: If you are not going to do anything about adopting the amendment, I make a motion to indefinitely postpone the bill on General File.

SPEAKER: Well yes you can make that motion but we can't discuss it now, because the time has run out. So as I understand the motion we have to vote as to whether the bill is advanced? Senator Chambers, lets have this correct. This is very important.

SENATOR CHAMBERS: Mr. President, you are saying that the only vote that can be taken on a bill is whether it advances?

SPEAKER: Let me read you that once more. (Read amendment)

SENATOR CHAMBERS: So what is being advanced, is the original bill.

SPEAKER: That is correct.

SENATOR CHAMBERS: Without the committee amendments, or...

SPEAKER: There have been no committee amendments adopted in a...a..and the 10 minutes have expired. Do you interpret that the same way I do? Senator Marsh?

SENATORMARSH: I don't interpret the same way apparently Speaker Proud. Since the committee amendments are the intention to be the bill, I move we vote on adopting the committee amendments with no other amendments then take another vote with no discussion right away.

SPEAKER: I think that you can do that if you can suspend the rules. Then your motion is to suspend the rules cause I won't take the motion except to suspend the rules, because I am interpreting this as written. I don't know how else to do it. Senator Stahmer.

SENATOR STAHMER: Mr. President, I am going to challenge the chair on this. I think that the intent is to vote the bill and/or with the amendments. We take one vote right after the other.

SPEAKER: Wait a minute Senator Stahmer, the intent is what?

SENATOR STAHMER: I think that it is to take the motions and vote them right through. Motions and then the bill.

SPEAKER: Wait a minute, let the Chair observe, that if we take all of the motions, there is not any limit on the time then.

SENATOR STAHMER: No, no, that isn't what I am saying. I'm saying take the amendments and vote on the bill after you have voted on the amendments. No more debate.

SPEAKER: Senator DeCamp. Now you know what your motion was, what do you say about it.

SENATOR DE CAMP: Mr. President, that is why I clearly pointed
